Motion by Anderson to open the public hearing at 7:15 pm, second by VanDyke, motion carries.

Greg Slater, 2500 Crockery Shores, stated that he saw nothing in the document that speaks to height. 35 feet was in section E4 of the original draft. Asked that the current draft state 60% value of destroyed property, the proposed has a value of 50%.

Carl Elliot 2532 Crockery Shores stated that 50% is a burden to homeowners. There is excessive cost to this change.

Tom Ludwick 2470 Crockery Shores, stated that the proposed ordinance says that a nonconforming structure can not be modified. If a portion is not in non-conforming will it be able to be changed?

Motion by Goodno to close public hearing at 7:32 pm. Second by Herremans, motion carries. Goodno stated that he would like to see the 60% kept in and to put the height back in, and does not support putting section H back in.

Herremans asked about the height and recommended that the board hold off taking action.

Motion by VanDyke to table the Nonconforming Structures Ordinance, second by Herremans, motion carries.

**Old Business**-Attorney Cliff Bloom's memo re: Ponds (Scheidel & Brown)

Attorney Bloom discussed the issue. The PC can decide if the ponds meet the standards, the PC can approve. If the ponds do not meet the standards, the PC could approve and send to the Zoning Board of Appeals. If the ponds do not meet the standards and the ZBA turns down, the ponds will have to be filled in. Will need further information before the PC can bring to public hearing. Draft memos have been given to the board for their review.
